Very little in the way of track or other construction was done during the the Kamehameha IV, road to the Kahauiki stream; an addition to the Queen street line of 1025 feet, included in which is a spur track of 150 feet leading to a fuel oil stand pipe; a curve at the intersection of Alapai and Beretania streets and a turnout of 400 feet in length, with a crossover, on Beretania street between Richards and Ala- place of great attraction during the kea streets, comprise all the work in year, but naturally it was not to be

enables us to reach the new military post at Kahauiki, from which considerable traffic is expected upon the completion of the post buildings and the occupancy of the same by the troops assigned to this post, while the Queen street extension gives us direct connection with the yards of the Oahu Railway & Land Company. The object of the construction of the curve at Alapai and Beretania streets and the turnout on Beretania street was to enable us to make certain necessary and towards the instruction and enjoyment desirable changes in the routing of the of the people of the community. cars on the Punahou and Hotel street

ings performed during the year was the erection of a car storage shed at the rear of the boller-room.

The erection of the ten new cars referred to in my last report was completed during the early part of the year and the cars placed in service on the King street line to the great comfort and convenience of those of our patrons who use that line.

Co., with very satisfactory results. In December we began the construction of an oil tank car of 70 barrels' capacity, in which it is proposed to transport our own fuel oil as well as that of other consumers throughout the city. This will enable us to effect considerable reduction in the cost of our fuel, in addition to which there will be the profit derived from the

transportation of oil to others.

RENEWALS AND REPAIRS. As our track, especially at crossings and turnouts, is beginning to show the result of wear and tear we have found made in our own shops at a considerable reduction under the cost of similar imported articles. The track generally and overhead structure have been carefully looked after and both are in good condition. We have given a large amount of consideration to the preservation of our cars and have given the majority of them a thorough over-FRESH SEEDS ARRIVED BY THE hauling so that with few exceptions sche. There were 6,219,311 full fare passengers, 275,625 half fare (school children) passengers and 121,-592 free passengers; of these last it is estimated that 75 per cent, or 91,194 is made up of police, letter carriers, firemen and sanitary inspectors, this being equal to a contribution to the pub-

lic service of \$4559.70. I append hereto a statement which year, a short extension of the King shows the monthly income and expenstreet line of 2330 feet running from diture in connection with the operating accounts which will explain itself. Altogether 25,735 persons paid admission fees; of these 23,797 vere adults and 1938 children. This does not by any means represent the number of children who visited the institution, as this patronage was principally on the "free" day of the week. The income from paid admissions was \$2476.70, against which there were expenses amounting to \$3692.91, leaving a deficit of \$1216.21-a sum which may be regarded as advanced by the company

In closing, I desire to reiterate my former expression of satisfaction of the The only work in the way of build- loyalty of the company's exployes to its interest. #### When "toning-up" is needed.

Everybody needs "toning up" once in a while. When people feel well they usually forget and neglect themselves. Nerves are over worked and they gradually get into the "run down" condition. People who are run down, who feel weak and

get at and cure is the reason. 9 times out of 10-the reason is weak nerves. That is why Paine's Celery Compound is so successful when the system needs "toning up."

There is nothing like it for this, It gently stimulates the nerves, feeds new power to them and builds them back to their healthy strength-then all of the organs do their work properly and the system is toned up to its proper vigor and the real joy of true health is felt.

Take, for example, the case of Miss Mac-Iver, of Chicago.

Sept. 19, 1904. "Paine's Celery Compound was recommended to me a few months ago when I could not seem to get my health and strength back. I seemed to be in a decline. Had headaches, a general depressed morose feeling, with no appetite, or ambition. Paine's Celery Compound was recommended to me so highly as a medicine calculated to restore strength that I was induced to try it. "I found that the first bottle was helping

me and so I kept on taking it. "In three months' time I was a well woman without an ache or a pain and had gained ten pounds and certainly look years younger. "I am very grateful for my recovery and shall speak in favor of Paine's Celery Compound whenever an occasion presents it-

Miss E. E. MacIver, 2516 Indiana Ave.

For 17 years Paine's Celery Compound has been the most universally used tonic in the world. Several years ago the formula was sent to every registered physician in the United States. It is constantly prescribed by physicians.

Think for a moment what this means and remember that Paine's Celery Compound is the prescription of one of the most famous physicians America has ever known-Prof. E. E. Phelps, of Dartmouth University

Paine's Celery Compound is recommended and sold by all reputable druggists everywhere.
